

UH Visitor Parking

You will need to purchase a parking permit if you plan to park on campus.

UH Parking recommends that you stop by the Cullen Visitor Information center to purchase a permit. Parking permits can be purchased for the day (\$3) or the week (\$12). Lot 15D, 11A and 16B Student Parking are open to visitors. Lot 15D and 11A are closer to the laboratory, but are smaller lots. There is ample parking available in Lot 16B, but it is further from the lab.

From Lot 15D and 11A Visitor parking to the Laboratory

Head towards University Park (Entrance 14). Cross Cullen and walk toward the end of the turnaround. The Science Building is just past the stop sign on the right. The laboratory is located in Room 219.

http://www.uh.edu/campus_map/buildings/S.php

If you have any problems locating the building call the laboratory at:
713-743-2669

From Lot 16B Visitor parking to the Laboratory

Head towards pavillion by the Music building (looks like a park area). Walk through this area and then through the breeze way between the Wortham Theatre and Communications Building. Continue forward and go down the stairs past the University Center Satellite. Turn right at the fork and keep walking until you reach the 'street' Entrance 14/University Park. You should be facing the Science Building, it is a large white building with a green house attached to the far end. Walk across the cross walk and it is the first building on your left. The laboratory is located in Room 219.

If you have any problems locating the building call the laboratory at:

713-743-2669

Student Drop off

If you plan on dropping off your student for the camp, from Cullen turn onto Entrance 14 (University Park). The Science Building is on the right just past the stop sign. The laboratory is located in Room 219.

Food on Campus

There are several dining options available for students. The PGH building has an Einstein Bros. Bagels and located right next door to the Science Building. The University Center Satellite has wide selection of vendors (see right) and is just a short walk away from the laboratory.
